MEMORANDUM FOR THE RECORD

SUBJECT: Conversation with Secretary Brown, 30 June 1978

9. I told him I was still concerned on the DIA building problem. I said that General Tighe was now making the argument that he had invested so much money in planning the Bolling site that he couldn't back off. Secretary Duncan took umbrage at this and said he had made it clear to Tighe when he asked for more money for the DIA building designed for Bolling that this would not be so great a commitment that we couldn't back off. They both indicated that was not a viable argument. They made no further comment on the issue however.
